

CO₂PDF-L

Data logger with display for temperature, humidity, pressure and CO₂

Data logger with external connection for a CO₂-sensor. Inclusive motion sensor. Integrated USB-interface for automatic PDF-creation, included wall mount.

Memory for 60.000 measurements (60k for each value), useable without software (default settings with 5 minutes interval), automatic PDF creation (no drivers required), optional software download), free adjustable recording interval 10 seconds up to 24 hours (via Software Log Connect), battery lifetime approximately 4 years (recording interval >15 minutes), status- and alarm-LEDs, deflatable display, resettable Max-Min values, time marking functions for measuring results, Motion sensor for shock recording e.g.: door or windows closing

Technical data

Measuring range: 0....5000 ppm

Voltage: 1 x 1/2AA size 3,6 volt

Battery life: approximately 4 years (with an interval of > 15 min)

Dimensions: 91,5 x 42 x 20 mm

Weight: 70 g
